## OBJECTIVE

I am looking an entry level job/intern opportunity as a Software developer in a Company where hard problem-solving skills required, following software development best practices and provides potential avenues for learning. I am very interested to work in such a company.

## WORK EXPERIENCE

I have no any work experience in authentic organization. Now, I have good knowledge and experience with Python OOP and Django. My practice experience is more than 2 years. Now, I am Student (Ten semesters) in Department of Computer Science(CSE) and Engineering at Daffodil International University (DIU).

## EDUCATION

<b>B.Sc. in Computer Science &amp; Engineering</b>	(Sept 2018 - Dec 2022)
Daffodil International University (DIU)	
<b>Higher Secondary Certificate</b>	(Feb 2016 - Dec 2018)
Sristy College of Tangail	
<b>Secondary School Certificate</b>	(Jun 2016)
Barabashalia High School, Tangail	

## PROJECTS

<b>Employee Management System (Django)-</b>	(December 2020 - April 2021)
---	------------------------------

**Link:** <https://github.com/Raju-Mia/employee-management-system-project-in-python>.

### Django blog App-

**Link:** [https://github.com/Raju-Mia/config\\_simple\\_project3](https://github.com/Raju-Mia/config_simple_project3)

### To-Do app with Django-

**Link:** <https://github.com/Raju-Mia/simple-model-forms-views-project>

<b>Snake Game with Python-</b>	(April 2021 - April 2021)
--------------------------------	---------------------------

**Link:** [https://github.com/Raju-Mia/snake\\_with\\_python](https://github.com/Raju-Mia/snake_with_python)

This snake game is just a simple snake game. So, I created a Python-based-game using the following modules:

- Turtle, Time, Random.

<b>Portfolio for Design-</b>	(May 2021 - May 2021)
------------------------------	-----------------------

**Link:** [https://raju-mia.github.io/portfolio\\_one/](https://raju-mia.github.io/portfolio_one/)

- This is a simple portfolio build for design.
- Here I have used html, CSS, Bootstrap.

## SKILLS
